Design Your Own Collar

Owners have put collars on their dogs for centuries. One can know a lot about the dog and their owner based on the design of the collar. Some collars can be super fancy and decorative to show off the owner's style. Other collars reflect the work a dog might do, be it a spikey protective collar for a mountain dog or a collar with a job name on it like "Seeing Eye Dog".

Design one collar based on your style and then create another one based on a job a dog could have.
